

Department of Mathematics : Society and Activities

Department not only imparts mathematical knowledge based on prescribed syllabus, it also strives to inculcate better understanding of the subject and appreciation of mathematics in the real world. The department has organized lectures by eminent mathematicians, workshops and talks in the past.

Some of the activities organised in recent past have been:

1. Lecture on 'Logic and Fuzzy Logic' by Prof. S.C Arora, former HOD, Department of Mathematics, University of Delhi
2. Lecture on 'Vedic Mathematics' by Dr Anuradha Gupta, Associate Professor, Department of Mathematics, DCAC, University of Delhi.
3. Workshop on 'Mathematics Beyond Theoretical Perspective'.
4. Talk on 'Power of Habits' by Amogh Lila Das, VP, Iskcon, Dwarka.
5. Remedial classes to help students understand the subject better. These classes were held for General elective Paper GE-1 (Calculus) for several courses of college.
6. 'Click and Share' Competition was conducted wherein students were encouraged to observe the world around them, click a picture and share it along with mathematical concepts that they see in it.
7. 'Rangoli Designing Competition' was conducted in which students designed Rangoli using numbers, geometrical shapes and mathematical symbols only.
