

SCHOOL OF ENVIRONMENTAL SCIENCES

JAWAHARLAL NEHRU UNIVERSITY

NEW DELHI - 110 067, INDIA

S. C. GARKOTI, Ph.D.

Professor

TO WHOMSOEVER IT MAY CONCERN

This is to certify that I, Prof S.C. Garkoti, Professor in the School of Environmental Sciences, JNU, Delhi has visited Bhaskaracharya College of Applied Sciences, a constituent college of University of Delhi at Dwarka, Sector-2, New Delhi. Based upon the Environmental Self-Assessment Report 2021-22 submitted by the college and upon physical verification of the same, I am of the opinion that college has done good work for making the campus environmentally sustainable of Water Management, efficient Energy use, Waste Management and Greenery Management. The institution has also conducted various outreach programs for sensitizing people outside the college. It was observed that college has taken initiative to reduce the usages of paper in the campus by using in-house developed application "BCAS Resource Automation, Handling & Management Application" (BRAHMA) to conduct various work and keeping record like student attendance and assessment, time table, mentorship record, IQAC, purchase etc. in digitized mode. The college has also entered into various Memorandums of Understandings (MOUs), adoption program and organised short term certificate courses based on environment and sustainability. In addition, college has initiated activities related to conservation of rare and endangered, medicinally and economically important plant species.
